## A. Mission Description and Budget Item Justification

DCMA is currently engaged in several major initiatives to improve our information technology environment. Information technology is the primary enabling capability our acquisition workforce is reliant upon to communicate with contractors, the DoD acquisition community and our customers. These initiatives are driven by the National Defense Strategy business reform line of effort. On December 21, 2017, the Reform Management Group directed the Information Technology (IT) and Business Systems Reform Lead to review Fourth Estate IT networks, policies, business processes, functions, costs and Chief Information Officer (CIO) organizational structures and manpower requirements across the Fourth Estate. In support of this directive, DCMA is structuring its information technology investments to be in synchronization with the vision of the DoD guidance. One early result of this review is the decision to transfer commodity information technology administrative control to Defense Information Systems Agency (DISA).

DCMA's IT investment strategy is being driven by the Director's initiatives to: 1) Develop Mission Business Systems; 2) Leverage Commodity IT Buying Power Through DISA; and 3) Focus On The Last Tactical Mile. These initiatives directly align and support the Optimization and Modernization efforts of the DoD CIO, which include: 1) Network Optimization; 2) Data Center Optimization; 3) Mission Partner Engagement; 4) Defense Travel Modernization ; 5) Enterprise Collaboration; 6) Consolidation of Cyber and IT Responsibilities; 7) Rationalize Business Systems; 8) Streamline IT Commodity Purchasing.

Development and research initiatives are a core component in DCMA's ability to align efforts appropriately to the DoD CIO IT Reform Initiative. In order to meet the needs of the DoD community, DCMA's current efforts are focused on the development of investments in two core areas: 1) DCMA App Store; and 2) Wide Area Work-Flow (WAWF).

These initiatives will empower mobile and fixed users ability to utilize DoD enterprise capabilities with the same level or better of efficiency and effectiveness.

**A. Mission Description and Budget Item Justification**

Development and research initiatives are a core component in DCMA's ability to align efforts appropriately to the DoD CIO IT Reform Initiative. In order to meet the needs of the DoD community, DCMA's current efforts include development investments in two core areas: 1) DCMA App Store; and 2) Wide Area Work-Flow (WAWF).

**B. Accomplishments/Planned Programs (\$ in Millions)**

	<b>FY 2018</b>	<b>FY 2019</b>	<b>FY 2020</b>
<b>Title:</b> System Modifications and Development	8.947	11.988	3.070
<p><b>Description:</b> The DCMA will use the systems and modifications program to focus on two main efforts which support: 1) messaging and collaboration (DCMA App Store); and 2) invoicing, receipt, acceptance and property transfer capabilities (WAWF). The DCMA App Store is required to centralize DCMA's acquisition mission specific applications into one application platform that will be housed on a DISA existing Impact Level 4 accredited cloud platform. The DCMA's second development effort will support Defense Logistics Agency's Wide area Workflow e-business suite by developing collaborative efficiencies in the invoicing effort between Defense Finance and Accounting Services (DFAS), DCMA, and vendors.</p> <p><b>FY 2019 Plans:</b> MOCAS In FY 2019 the MOCAS JPMO's focus will transition from modernizing business processes to implementing the modernized conceptual design architectures. The JPMO anticipates the legacy MOCAS architecture transition will commence through prototyping and analysis of detailed designs of early development focused on three key enterprise service segments; Data Migration and Stabilization, Enhanced Reporting and User Workflow Automation. Additionally, in parallel, the MOCAS JPMO working through the DoD-wide enterprise governance model will continue to study, select, design, develop, test, and implement critical System Change Requests (SCRs) to further yield efficiency within the DoD's Procure to Pay (P2P) Business Process.</p> <p>IWMS IWMS will complete development and deployment of contract close-out and subsequently integrate with The Defense Contract Audit Agency (DCAA) and DCMA's Contract Business Analysis Repository to provide a "one stop shop" for DOD contract integration and close-out capabilities.</p> <p>Business Intelligence (BI) Modernization</p>			

# UNCLASSIFIED

Exhibit R-2A, RDT&E Project Justification: PB 2020 Defense Contract Management Agency			Date: March 2019		
Appropriation/Budget Activity 0400 / 5		R-1 Program Element (Number/Name) PE 0605013BL / Information Technology Development	Project (Number/Name) 01 / Systems Modifications and Development		
B. Accomplishments/Planned Programs (\$ in Millions)			FY 2018	FY 2019	FY 2020
<p>BI Modernization will continue to provide internal DCMA end users self-service customization allowing for the creation and modification of canned and unique dashboards, displays, workspaces, and reporting across a multitude of DCMA functional capabilities. This cost category also includes online analytical processing (OLAP) which is a broader category of business intelligence which can be used for report writing.</p> <p><b>FY 2020 Plans:</b> DCMA App Store Development and testing for a new DCMA App Store capability which will replace DCMA’s current Legacy eTools through rationalization and modernization. This investment transfers legacy application hosting and management of business requirements to an Impact Level 4/5 (IL4/IL5) cloud platform supported by Defense Information Systems Agency's (DISA) Enterprise solution.</p> <p>WAWF This effort will provide a more efficient way to retrieve accepted receiving report information for their active Commercial and Government Entity (CAGE) Codes and applicable extensions when initiating invoices for WAWF direct and vendor direct-shipping deliveries. It will reduce significant manual processes as an electronic solution is currently unavailable. In addition, funding will be used to develop processes to increase electronic submissions and decrease manual labor to create paper corrected receiving reports and prevent delays due to manual processing of documents. Requested changes for Wide Area WorkFlow were submitted to the Operational Requirements Committee (ORC) for review and approval. This committee is chaired by Defense Procurement and Acquisition Policy Directorate (DPAP) and the DoD Comptroller.</p> <p><b>FY 2019 to FY 2020 Increase/Decrease Statement:</b> Explanation of change from FY 2019 to FY 2020 decreases result from a complete review of DCMA's IT environment requested by The Agency Director and new Chief Information Officer. DCMA conducted a requirements acquisition strategy review ensuring future development be aligned to the current DoD Enterprise and Agency strategic goals and objectives. As a result of this review and the DoD directive to complete the 4th Estate IT network optimization effort and transfer commodity management to DISA, DCMA is temporarily restricting focus of development to a few key projects.</p>

<b>D. Acquisition Strategy</b> The DoD CIO's strategy addresses Cloud, Cyber and Artificial Intelligence Initiatives and their implementation via the DoD IT Reform Initiative. The DCMA Director has identified three DCMA initiatives in alignment with the DoD CIO's initiatives to include: 1) Off-Ramping IT Services 2) Mission System Development and 3) The Last Tactical Mile.		
<b>E. Performance Metrics</b> To deliver on our mission and vision, the Agency is focused on five primary strategic goals: 1) Enhance Lethality through On-Time Delivery of quality products; 2) Enhance Lethality through Affordability; 3) Ensure Agency funds are used in alignment with Department guidance and executed in a transparent, accountable manner; 4) Reform the Agency business practices by working smarter not harder; and 5) Enhance and Strengthen the skills, readiness, and effectiveness of the total workforce. All five of these strategic goals align to the current three pillars of the National Defense strategy to: 1) Build a More Lethal Force; 2) Strengthen Our Alliances and Attract New Partners; and 3) Reform the Department's business practices for greater performance and affordability. The Agency will assess each of these primary strategic goals identifying measurable capability improvements leading to enhanced Warfighter Lethality through timely delivery of quality products, and acquisition insight supporting affordability and readiness.

**A. Mission Description and Budget Item Justification**

DCMA is currently engaged in several major initiatives to improve our information technology environment. Information technology is the primary enabling capability our acquisition workforce is reliant upon to communicate with contractors, the DoD acquisition community and our customers. These initiatives are driven by the National Defense Strategy business reform line of effort. On December 21, 2017, the Reform Management Group directed the Information Technology (IT) and Business Systems Reform Lead to review Fourth Estate IT networks, policies, business processes, functions, costs and Chief Information Officer (CIO) organizational structures and manpower requirements across the Fourth Estate. In support of this directive, DCMA is structuring its information technology investments to be in synchronization with the vision of the DoD guidance. One early result of this review is the decision to transfer commodity information technology administrative control to Defense Information Systems Agency (DISA).

DCMA's IT investment strategy is being driven by the Director's initiatives to: 1) Develop Mission Business Systems; 2) Leverage Commodity Buying Power Through DISA; and 3) Focus On The Last Tactical Mile. These initiatives directly align and support the Optimization and Modernization efforts of the DoD CIO, which include: 1) Network Optimization; 2) Data Center Optimization; 3) Mission Partner Engagement; 4) Defense Travel Modernization ; 5) Enterprise Collaboration; 6) Consolidation of Cyber and IT Responsibilities; 7) Rationalize Business Systems; 8) Streamline IT Commodity Purchasing.

These initiatives will empower mobile and fixed users ability to utilize DoD enterprise capabilities with the same or better level of efficiency and effectiveness. In addition, it will create an IT infrastructure that enables shared services and improve timely access to data via cloud capability in a secure and protected integrated environment. The new strategy to move services to the cloud requires research and solution identification to understand and implement a cloud security capability that doesn't currently exist within DCMA.

A. Mission Description and Budget Item Justification												
Development and research initiatives are a core component in DCMA’s ability to align efforts appropriately to the DoD CIO IT Reform Initiative. It's crucial that DCMA continue to develop capabilities and automate processes within IT to secure DoD IT cloud migration services for DCMA. In order to meet the needs of the DoD acquisition community, DCMA will develop a cloud security solution that integrates across all DCMA utilized government and commercial solutions while aligning with the DoD Joint Information Environment (JIE) and Joint Regional Security Stack (JRSS) .												
B. Accomplishments/Planned Programs (\$ in Millions)									FY 2018	FY 2019	FY 2020

Description: Development and research initiatives are a core component in DCMA’s ability to align efforts appropriately to the DoD CIO IT Reform Initiative. It's crucial that DCMA continue to develop capabilities and automate processes within IT to secure DoD IT cloud migration services for DCMA. In order to meet the needs of the DoD acquisition community, DCMA will develop a cloud security solution that integrates across all DCMA utilized government and commercial solutions while aligning with the DoD Joint Information Environment (JIE) and Joint Regional Security Stack (JRSS) .												
FY 2020 Plans: Cloud Security solution DCMA does not currently perform the Cloud Security function which will require RDT&E to develop the requirements to implement a new solution in support of the DoD CIO's cloud migration strategy. This will take multiple years to research and develop the requirements to implement another contract for a new capability and solution that will integrate across all DCMA utilized DoD and commercial solutions while aligning with DoD Joint Information Environment (JIE) Joint Regional Security Stack (JRSS).												
FY 2019 to FY 2020 Increase/Decrease Statement: Increase is from a transfer of all cyber requirements into separate and transparent program elements in order to cleanly identify an manage cyber security requirements. This requirement in the prior budget cycle was aligned to DCMA's Information technology development program element.

**D. Acquisition Strategy**

The DoD CIO's strategy addresses Cloud, Cyber and Artificial Intelligence Initiatives and their implementation via the DoD IT Reform Initiative. The DCMA Director has identified three DCMA initiatives in alignment with the DoD CIO's initiatives to include: 1) Develop Mission Business Systems; 2) Leverage Commodity Buying Power Through DISA; and 3) Focus On The Last Tactical Mile. The DCMA's Cloud Security requirement research and solution identification are critical to the success of securely integrating DCMA's data into the DoD Cloud Migration effort.

**E. Performance Metrics**

To deliver on our mission and vision, the Agency is focused on five primary strategic goals: 1) Enhance Lethality through On-Time Delivery of quality products; 2) Enhance Lethality through Affordability; 3) Ensure Agency funds are used in alignment with Department guidance and executed in a transparent, accountable manner; 4) Reform the Agency business practices by working smarter not harder; and 5) Enhance and Strengthen the skills, readiness, and effectiveness of the total workforce. All five of these strategic goals align to the current three pillars of the National Defense strategy to: 1) Build a More Lethal Force; 2) Strengthen Our Alliances and Attract New Partners; and 3) Reform the Department's business practices for greater performance and affordability. The Agency will assess each of these primary strategic goals identifying measurable capability improvements leading to enhanced Warfighter Lethality through timely delivery of quality products, and acquisition insight supporting affordability and readiness.
