<p>Description: The Defense POW/MIA Accounting Agency (DPAA) identified the Agency Information Modernization Strategy-Case Management Solution (AIMS-CMS) as the most efficient approach to deploy a single database that meets the statutory requirement and is in accordance with applicable regulations, and policies regarding fielding and managing Defense Business Systems (DBS).</p> <p>DPAA intends to use \$9.1M (Procurement, Defense-Wide appropriation) to purchase Commercial Off-the-Shelf (COTS) software solutions, deploy and configure those solutions to access DPAA's existing multiple datasets, and train DPAA employees in the use of AIMS-CMS. The COTS software applications allow DPAA to quickly and efficiently compile all relevant case data, and develop and track case information from establishment of a case file through identification of a missing persons remains. Additionally AIMS-CMS will allow for the collation and analysis of DPAA workflow meta-data to identify and correct inefficiencies and further streamline business practices.</p>												
<p>Justification: 10 USC 1509, as amended by the FY 2015 NDAA (PL 113-291) requires DPAA to: "establish and maintain a single centralized database and case management system containing information on all missing persons for whom a file has been established..." and "The database and case management system shall be accessible to all elements of the Department of Defense involved in the search, recovery, identification, and communications phases of the program..."</p> <p>AIMS-CMS is a key component of DPAA's strategy to achieve modernization as a defense agency, information sharing amongst the Department's personnel accounting community and improving its ability to provide information to the families of our missing.</p>
